Subject: FYI-Final clearance of 4th National Climate Assessment

Richard, Jennifer, Bruce:

I wanted to let you know that the Federal Steering Committee met today to evaluate changes made to the Fourth National Climate Assessment draft in response to comments received during the agency clearance review. All the comments submitted by EPA were appropriately addressed, and the EPA Steering Committee member (Darrell Winner) concurred with the decision to accept the revisions and proceed to publication of the Assessment. We anticipate public release of the Assessment (in on-line format) in early December.

Even as NCA4 proceeds through the final steps toward publication, efforts are underway for development of NCA5. I have had early discussions with staff from ORD, OAR, and OW about initial decisions and discussions related to NCA5, specifically regarding the structure of the Assessment and the use of scenarios. If you are aware of issues at the senior leadership level related to NCA5 that need to be conveyed to the NCA5 development team at USGCRP, please let me know and I will be glad to raise them for discussion.

As always, let me know if you have any questions or need additional information.

Andy
